FROM THE ADVERTISER'S BULLETIN SERVICE

Bulletin Service To Be Resumed

Since the interruption to our bulletin service, we have not resumed our service during the past two days but will recommence on Saturday as before and give the latest news in our windows.

Our Boys at Valcartier

Our boys are still at Valcartier, Que., several letters having been received by friends in town from them at the big camp. Their first two days were spent in picnics and horse races, and Jupiter Pluvius says that there was no lack of water, as it rained all the while. The camp which is located at the foot of the Laurentian Mts., the oldest mountain range in the world is close to the Jacques Cartier River about fifteen miles northeast of Quebec City, and extends for three miles. Drilling occupies a great portion of the time and already the boys feel more competent in field manoeuvres and shooting. Food is quite good for war time, although salads and sweets are not as plentiful as at home. The greatest care is taken in providing for the health of the camp. Inoculation against infectious diseases was rather painful. There was a shortage of uniforms at first but provision has been made for the issuance of complete outfits. Dry underclothing is always issued after any very wet weather. There is very little grubbing in camp and no occasion for any. The boys have met Baldwin of the Commercial staff and other old acquaintances in other regiments. Strict watch is held over visitors entering the camp. No liquor is allowed and very few cases of drunkenness have occurred. Two strafes have been shot for entering the lines without halting when challenged. Frequent runaways occur when wild western horses become frightened and unmanageable. One rider was thrown and had three ribs broken, the horse running through three tents before he was caught. Letters from Claresholm are eagerly welcomed. No definite date has been given out as yet for leaving for the front.

Bow Valley

Threshing is completed in this district and the grade of the grain is reported to be good.

S. L. Purcell is congratulating himself on a large saving seen from the loss of 1,000 bushels of wheat when a straw stack adjoining the granary took fire last week. Only the prompt action of Mr. Purcell and the threshing crew saved the granary.

The telephone construction gang under the charge of Art. Railin left on Friday of last week.

Art Aikins absolutely refuses to be interviewed concerning certain happenings of late. No blame can be attached to Arthur.

Irl Datto has his running mare in first class shape for the Carmagnay Fair.

Bow Valley is again wearing crepe for the baseball team. This time it was the Swedes did it, 12-4.

T. Back is on the water wagon. He says he intends buying it if the cook goes along.

Ross Purcell and Dusty were reported among the missing on Sunday last but folks were unnecessarily alarmed as they turned up Monday morning.

Pastor Leaves for Ottawa

J. Rev. J. M. and Mrs. Harrison left on Tuesday morning for Ottawa where Mr. Harrison will attend the meeting of the General Conference of the Methodist Church which holds its sessions in Dominion Church in that city beginning September 23rd. This conference meets every four years and is composed of one minister and one layman for every twelve members of the annual conference. During Mr. Harrison's absence the pulpit of the Methodist Church will be supplied regularly by ministers and others within the Macleod District.

On Sunday, Sept. 20th, Rev. A. A. Lytle, of Pincher Creek will preach. Sunday, Sept. 27th, will be recognized as Rally Day for the Sunday School at the morning service and Rev. R. K. Peck will preach in the evening. On Tuesday, Oct. 4th, Rev. T. W. Read, of Cooley, will preach at both services and Saturday, Oct. 11th, Mrs. Jas. McKinley will occupy the pulpit. Should the General Conference not complete its work in time to permit the return of Mr. Harrison for Sunday, Oct. 18th, Rev. F. I. Halgood, of Fishburn, will preach. During the absence of the pastor, Mrs. E. G. Barber will have full charge of the Wednesday evening services.

Let Us Get Together

As there are some farmers who have been unfortunate this year in not even securing crop enough for seed for next year, and as the attention of the government has not been drawn to cases of need in this district, if all the farmers who will not receive grants with the Advertiser Office, a list will be made of such cases and the attention of the Dominion government called to these by the united action of those who desire government aid.

Alberta Leads All Other Provinces**Form Temperance Activity is Taking**

How much money will be raised monthly by five and ten per cent of the salaries of the Civil Service being contributed to the Patriotic Fund? That is the question heard most frequently in official circles since Premier Sifton made an announcement of Alberta's policy a few days ago. The provincial auditor is busy preparing a statement for the legislature and there is no doubt but that it will tell a handsome amount.

Every person on the payroll of the people of Alberta will give; those receiving up to \$1,500 will contribute five per cent of their salaries monthly and those earning over that amount will give ten per cent.

The authority of the legislature will be asked to authorize the collection of the subscription during the war and the object of the fund will not be only to benefit dependents of Canadian volunteers and regulars, but also British navy and army reservists and French, Belgian and Russian reservists who have gone to join the colors, leaving dependents in Canada.

Alberta leads the Dominion in the number of volunteers for active service and it is Alberta's government who was the first to offer a war gift to the Imperial government, a large portion of the half million bushels of oats being now on the way to the front.

Alberta now leads the other provinces in special provision for the families of the men going to the war and Premier Sifton is demonstrating that he made no idle boast in saying that this province would give its last dollar and its last man for the defence of the Empire should it be necessary.

Why Make a Distinction?

According to information given out from Ottawa, a separation allowance of \$20 per month, to be issued from Ottawa, has been authorized for the wives of the men who have gone to the front.

In addition another sum will be paid by the patriotic fund committee, which should be furnished with the names and addresses of all such wives, including those of army reservists of the British, French and Belgian armies, who are residents of Canada.

It would seem to be still a point whether the separation allowance will be paid to the wives of reservists but, if it comes to a matter of justice, it is only right that the same allowances from the patriotic fund be made to those who go with the Canadian contingent.

The services rendered by those who go to England, France or Belgium to fight the Germans is as great to Canada as those of our own contingent.

The need is generally greater in the case of the dependents of the reservists than of their army in their own lands is considerably smaller.

They were citizens of Canada even as were the others and it seems unfair to make distinction nor do we believe the donors of the fund desire a distinction in the distribution of the fund.

THE ADVERTISER'S SUMMER PASTIME**Missing An Instalment**

The instalment of the Summer Pastime got chilled by the cold weather and is omitted this week. Next week we shall continue as before, and no time will be lost through the omission of the instalment this week.

Black Tail

The Misses Lane have returned to Calgary.

Mrs. Jack Kobbie and infant daughter have been spending a few days with Mrs. Boulton.

Service will be held in the Kehler Coulee schoolhouse on Sunday at 7 p.m.

Mrs. Boulton and sons are visiting friends at Nanton this week.

Thos. Boulton and John Carminich have moved some of their cattle to the winter quarters in the Hills.

A party from Stavely visited Bob Vaneece on Sunday last.

The branding of the calves seems the important thing this week.

Satisfied After Ten Years

Last Saturday was an interesting anniversary to Hans Johnson, who lives north-west of Claresholm, in the Prairie View school district. Ten years ago on June 1st, Mr. Johnson left the town of Salmon Meadows in south-western Idaho for Canada, making the entire journey of 1100 miles in a prairie schooner, arriving in Claresholm on Sept. 12th. His trip over the Rockies, through the passes, was at that time a more arduous journey than it is now but the small party persevered and eventually reached the district where conditions seemed favorable for settlement. Mr. Johnson, by the use of intelligent and thorough farming methods has done well here in this district and does not regret his choice.

It will then remain with the legislature whether it shall pass the bill as presented or refer the matter to the people for a vote. If the latter method is decided upon, it must be done not later than ten months and not earlier than three months after the close of the session. The draft of the measure proposed is attached to each petition so that the signers may inform themselves as to its form and intention.

Leaves Kindergarten Open

The Ontario government's proposed solution of the temperance question is said to be to permit only beer and light wine to be sold over the licensed bars and to place strong liquors under direct government supervision. Such a move will probably lessen some of the evil effects of drunkenness but will not satisfy the friends of temperance in the older provinces.

In almost every case, beer has been the kindergarten of the drunkard and it would seem more rational to close the kindergarten rather than to attempt to stop the allowance of the post-graduate in drunkenness.

A Weed Grievance

To the man who is endeavoring to keep his land free from weed, the failure of the part neighbor, or town, or government to destroy the weeds on property near by, is hardship. But when the district is in the south where high winds and absence of barriers means the free passage of weed seeds and the widespread sowing of the same, to fail to cut the weeds becomes a crime.

Complaint has been frequently made of late that pigweed, Russian thistle and Canada thistle are growing unchecked on the C. N. R. right-of-way east of town and in the town of Claresholm. We have nothing to do with the former two but the town of Claresholm, situated as it is in a municipality which has made a valiant struggle against noxious weeds, should be the last offender in this regard.

Farmers adjoining the town should not have forced upon them the extra expense and monetary loss in combatting the weed invasion from the neglected patches in the town and these farmers have a right to demand the destruction by the town council of these intrusions to their crops.

ROD AND GUN IN CANADA

ROD AND GUN in Canada is a monthly magazine devoted to stories of fishing, hunting, shooting, trapping and other outdoor pastimes. During the year every part of the Dominion receives some attention and those fond of the outdoor life may sit by the fireside on a winter's night and share in imagination the pleasure and excitement of the real field-and-fishland adventures in the wilds, shoot bighorn rams with them in their canoes, trail and shoot big game in Canadian hinterlands, play the big fish with the light tackle in some salmon stream, thread the treacherous north country with the trapper or forest ranger, in fact, enjoy all the rest of the life outdoors without the discomforts.

The Advertiser and Rod and Gun in Canada, for one year for \$2.50.

No Crop Failure Then

On no less authority than P. E. Light, B.S.A., in the Canadian Farm, the following (part) appears:

Discussing the serious crop failure in certain parts of Western Canada this summer, the writer asked the question, "Will Western Canada ever be able to depend upon her climate, meaning for the greater part rain?" His listener, a very prominent soil and crop man replied, "Ten years from now there will be no crop failures in our Prairie Provinces; when our farmers farm instead of gamble with the land, that is, when they plow properly, till correctly, rotate wisely, and summer fallow necessarily then general or even local crop failure will be obsolete in our country."

His statement is near-bible truth, and what is true of Western Canada where nature has not generously bestowed the blessings of rain and crop climate, is doubly true of Manitoba and the Maritime Provinces where much greater because rainfall is less, and our live stock more prevalent.

Any great agriculturist will tell you that climatic influences are no greater than tillage influences, and that these two together are far greater in import than soil character.

Character is to chemical content in increasing and decreasing the size of the crop. True, we must have rich soil, but rich soil is not fertility; rich soil and good cultivation together make fertility, and therefore proper tillage methods exercise an influence second only to that of a properly arranged rotation.

Short Session Likely

The opening of the provincial legislature has been definitely set for Wednesday, Oct. 7th. No contentious legislation will be brought down by the government so the length of the session depends largely upon the opposition.

It is thought that the business of the session will not take longer than three weeks and that evening sittings will be dispensed with.

Will Supply Seed

All metal bushels of seed grain will be furnished by the government to the farmers of the west whose crops were a failure this year, is the announcement made by Hon. Martin Burrell, Dominion minister of agriculture.

Plans are being made for further assistance. An appeal is being made by the department to the farmers of the west to increase their wheat acreage to meet the food supply demand of next year.

Findley-Murphy

At the rectory on Wednesday, Sept. 10th, John Edward Findley late of Hamilton, Ont., but recently a farmer near Carmagnay and Sarah Agnes Murphy, from Northumberland, Eng., were made man and wife, the ceremony being performed by Rev. H. M. Henderson at 4:30 p.m.

Mr. and Mrs. Findley will make their home on the farm of Mr. Findley, about 17 miles east of Claresholm.

To Pound in Your Name, Location, Business

There is only one way to advertise, and that is to hammer your name, your location and your business so persistently into people's heads that if they walk in their sleep they will constantly turn their steps towards your store. The newspaper is your friend in spite of criticism. It helps build up the community that supports you. When the day comes that the newspapers are dead, the people are on the edge of grave with nobody to write the epitaph.

A Delayed Settlement

According to the strong representations made by our local member, Mr. Coste, of the Gas Co., will be in the constituency next week when he will meet all who have a grievance in connection with the poles along the gas line and make an satisfactory a settlement as possible. The farmers along the line should be ready for this visit.

Beginning of the End

The Advertiser's Bulletin, No. 50, Thursday, Sept. 10th, 6.30 p.m.

London—Official statements were issued this afternoon saying that the Germans are being driven back all along their line. Their centre which has been strengthened has been bearing the onslaught of the French who on the field of Chalons are reviving the glories of Napoleon's fighting forces and with the successes which the allies have been having their fighting fire is being restored. The German right is still being pressed backward by the British and allies. Tokyo—A Japanese dispatch says that country has been made a party to the agreement with France, Great Britain and Russia, to accept no peace overtures until all are consulted and give assent. Petrograd—A dispatch this afternoon says the manifest signs of dissolution of the dual monarchy, Austria-Hungary, gives greater sanction to the belief that overtures will be absolutely necessary from the Austro-Hungarians. It is admitted that the Austrian Frederick has lost 120,000 men in the fighting in Galicia. Copenhagen—A dispatch says a large German squadron has been observed in the Gulf of Bothnia heading east. This may mean the bombardment of some important town in Finland as a threat to frighten the Finns. London—Romania, Bulgaria and Greece will fight Turkey, if latter declares war. Total British cas-

tualties to date are given as 19,000, killed, wounded and missing. Toronto—Patricia regiment will start as soon as steamships are arranged for. All Canadian liners in port have been obtained to carry troops.

The Advertiser's Bulletin, No. 52, Saturday, Sept. 12th, 12 noon.

London—Even Berlin is admitting a series of signal reverses in France. Both right wing and centre retreating with serious losses of cannon and prisoners. The loss to the German force of dictating positions for engagements is most serious. One more day of such driving and the Germans will be in a country so rough that swift supporting movements will be very difficult if not impossible. Petrograd—The Russians have succeeded in separating the Austrian army in Galicia and southern Poland into three parts and the complete annihilation or surrender of each may be expected. There will be no doubt that two days will see Austria eliminated from the great war. Calgary—The September snow storm is covering the hills both north and west. Six inches fell at Banff and four at Crossfield on the C. & E., Calgary—a guard at the Army Ordnance stores on 12th av. East was fired upon by German spies early yesterday morning. A poor aim alone saved his life. Washington—President Poincaré of France has replied to the charge of Germany that the English were using dum-dum bullets by denying absolutely the charge on behalf of the allies and emphatically charging the Germans with the use of the deadly bullet. Petrograd—Denial is made of any real reverse to Russian armies in Eastern Prussia. Antwerp—The Belgians have recovered their second wind and are harrying the enemy in the south and in centre Belgium.

The Advertiser's Bulletin, No. 53, Sat., Sept. 12th, 5.45 p.m. Antwerp—King Albert has personally taken command as general commanding regiment and directing Belgian advance against Germans. Germans are gradually being forced back both southward and eastward. Ottawa—West will be

**COURAGE CANADA**

CANADA is favored among nations. We have peace with our own borders. We have learned the lessons taught by lean times, and so are prepared to face the days ahead. Our farmers are prospering by reason of the present conditions—and when agriculture flourishes, the business outlook is one of good hope and cheer.

Some Canadian industries and mercantile enterprises must suffer because of the partial suspension of trans-oceanic trade. But more industries will be stimulated to supply our home demand, which MUST be satisfied. It is a time of business opportunity in Canada.

Let Courage Possess Us

WAR COURAGE

MANY a man in Canada, willing to go a-warring across the seas, is unwilling to fight at home—against the shadowy foes of bad times or of business depression.

This is a time in Canada when Canadian business men should fight—fight to capture new trade and to hold old trade. To stop one's advertising is to withdraw a powerful offensive and defensive force, and to expose one's business without a guard.

If the courage of manufacturers, wholesalers, retailers—the generals and captains of trade and industry—fails, the courage of the nation will ebb.

Keep Up Your Courage **Keep Up Your Advertising**

Where are you served best and most pleasingly? The answer is almost sure to be—"Where we are invited and made welcome." This is the kind of social position common enough to seek it, and where seek it every man through the medium of advertisements in the ADVERTISER."

Aliens and Fire-Arms

The following Order-in Council dated Thursday 9th September, 1914 is published for information:

His Excellency the Governor in Council, under and in virtue of the provisions of Sec. 6 of the War Measures Act 1914, is pleased to make and doth hereby make the following orders and regulations for the better protection of fire-arms, ammunition, dynamite, gunpowder or other dangerous explosive, within Canada by alien enemies.

(1) The possession of fire-arms or any ammunition therof, or of any dynamite, gunpowder or other dangerous explosive, within Canada by any alien enemy, is prohibited.

(2) It shall be an offence for such an alien enemy to have in his possession or upon his premises any fire-arms or any ammunition therof or any dynamite, gunpowder or other dangerous explosive, within Canada, whether such an alien enemy be in or near the locality where such fire-arms, ammunition, dynamite, gunpowder, or other dangerous explosive are so held in possession or to an office or place of business or to the R.N.W.M.P. Police.

(3) Any person of the peace or any such officer, constable, receiving such fire-arms, ammunition, dynamite, gunpowder, or other dangerous explosive, shall give notice thereof and shall report the fact to the Chief Commissioner of Dominion Police or to the Commissioner of the R.N.W.M.P. Police, under whose direction the person so holding such fire-arms, ammunition, dynamite, gunpowder, or other dangerous explosive shall be removed to a place of safety.

(4) If any alien enemy within Canada is reasonably suspected to have in his possession or upon his premises any fire-arms or ammunition therof, dynamite, gunpowder, or other dangerous explosive, he may be searched, or his premises or any place occupied or believed to be occupied by him, may be searched by any peace officer or by any officer or constable of the R.N.W.M.P. Police without warrant, and if any fire-arms, ammunition, dynamite, gunpowder, or other dangerous explosive be found upon the person or premises of any such alien enemy, or in any such place of temporary or permanent abode, he may be seized, and if such search and seizure shall have taken place after the expiration of the period of ten days hereinbefore mentioned, the property so seized may be forfeited to the Crown, and the alien enemy upon whom or upon whose premises, or in whose possession such fire-arms, ammunition, dynamite, gunpowder, or other dangerous explosive are found shall further be liable to a penalty not exceeding five hundred dollars, or to imprisonment for any term not exceeding three months.

(5) It shall be an offence for any person to give, sell, hire, lease or transfer possession of any fire-arms, ammunition, dynamite, gunpowder or other dangerous explosive to any alien enemy, or to any such officer, constable, or to any alien enemy who is liable to a penalty not exceeding one hundred dollars or to imprisonment for any term not exceeding one month.

(6) Any offence declared and any penalty or forfeiture imposed or authorized by this ordinance may be prosecuted, recovered or enforced by summary proceedings and conviction under the provisions of Part XV of the Criminal Code.

(7) If any question arises under this ordinance, or in any proceeding instituted thereunder, or with reference to any of the matters hereinabove set forth, the authority thereof, as to whether any person is an alien enemy or the onus of proving that any person so suspected or charged is not an alien enemy shall lie upon the accused in such proceeding.

Great Crest of the Sierra

Mount Whitney, the highest point in the United States, is not an isolated mountain peak, like Mount Shasta or Mount Rainier, but is the crest of the Sierra Nevada range, rising from the floor of the valley almost as high as Mount Whitney is long. It is about one-half a mile wide at its base, and the highest peaks are Mount Russell, less than a mile distant, 14,208 feet; Mount Morrison, 14,000 feet; Mount Muir, 14,295 feet; Mount Langley, 14,040 feet; Mount Bernard, 14,000 feet; and Mount Lyell, 13,900 feet. The snow line on the crest of this is less than six miles away.

A point of interest is the lowest point of dry land in the United States is less than one mile from the Great Basin. This point is in Death Valley, and is 276 feet below sea level. From this point that from this point Mount Whitney can be easily seen on a clear day.

A Question of Brains

At a club frequented by doctors the topic of conversation turned to the question of whether a person could live without a brain. During the discussion one of the doctors, a man who was a specialist in medicine in Indiana, made a remarkable case under my supervision. A man who had been shot in the head with a shotgun and the weapon had gone off accidentally, making a large wound in his head. He had been unconscious and was laid bare in bringing the patient to the hospital a hand was cut off. He was trepanned and finally recovered, his brain apparently as good as ever.

"Your story is interesting," inter-
viewed somewhat inconsistently."

"Why so?" questioned the narrator.
"Because he had a handful of
brains. If he had ever had a handful of
brains, wouldn't have leaned on the
water bucket."

Now a Star Physician

"I want to telegraph \$25 to Chicago," said a man, a clerk in a Boston telephone office, recently.

The man was a young man, the receiving teller, a good looking, young man, however, the counter whose assis-
tant he was, was a woman.

"It's for Mrs. Mary K. Brown, 175
avenue," said the young man, "she
has a son, please, again question-
ing the young woman."

"Mrs. Brown is down town," answered
the man.

The money goes to the silent part-
ner, eh?" said a man, suddenly remarked the
young woman.

"She hasn't," answered the
man. "Nothing about her."

"She's made, made for her."

"She's the best that you can
imagine. She's the noisy partner
of the firm, and she makes a lot of
noise,"—said the Traveler.

A Hint
"You," said the young student
thoughtfully, "when I get interested in
a subject I never stop until I have
something to say about it."
"That's new," was the reassuring re-
ply. "Do you think I'm an inter-
esting subject?"

Treating

"It's there much competition in your
office," said the young student.
"Sure," replied the facetious Miss
Gibbs, "but—between the mirror and
clock—Puck."

"When did you find that you
had to leave?"
About a quarter of a minute after
I discovered he no longer felt the
heat, he did not see him riding
away. "That's new," was the reassuring re-
ply. "Do you think I'm an inter-
esting subject?"

In Auckland it appears, woman? I'll keep
them bathe in the theatres. At
a comedy a very large lady was re-
moved from the room because she
had come to sit at a far greater
height than the rest of the audience.
She's made, made for her."

"I'll see the doctor," he told her.
"You don't need a doctor with the rest
of the audience!"

"Oh, I don't," she replied, indignant-
ly. "Well, you just watch my shoulders
and when I laugh you laugh,"—Boston Traveller.

There had been great excitement in
that theatre, and the curtain had burst
in the vestibule. The disengaged
prisoner was silent.

"My God!" he protested.

"The man was guilty! Why
didn't you convict him?" Pat.

"I'll stop," he said. "Hanging
would have been too good for him,"—Judge.

Mr. Conyngham tells with great
grief that his son has been killed in
a shooting accident.

"Not his word while," sneered the
tartar. "But it's bad luck to chase
a woman with a gun,"—Boston Traveller.

"He invited me to share a bottle of
grape juice with him,"—Pittsburgh Post.

ture—yet they are often called to

The Giraffe as It Feeds

The singular shape of the giraffe is
adapted to its habits of feeding. It feeds
up on the leaves of trees, and the
long neck enables it to reach the leaves
of the Philadelphia Quaker.

Clareholm Locals

W. H. Cody, of the Foothills Lumber Co., is in town.

A quantity of old papers for sale at the Advertiser, 100 for 25¢.

T. D. Lewis has returned from Bordulac, N. Dak., where he reports a splendid crop is being threshed this year.

J. Forsyth Smith, of Calgary, markets commissioner for the B. C. dept. of agriculture, was in town this week.

E. E. Spalding, of Fernie, B. C., was here on Sunday. Mr. Spalding is compiling an automobile road guide for the province.

V. A. Porter, of Edmonton, formerly an implement agent of Claresholm, arrived on Sunday on a business visit.

H. E. Moran, a buyer for Fry & Co., visited the large cattle ranches in this neighborhood looking for cattle for his firm, last week.

T. A. Powell, court stenographer, Macleod, was here on Thursday taking additional evidence in the Stevenson vs Finlayson horse case.

Jos. McAlpine, at one time implement agent at Barons, is visiting his brother, Jack McAlpine, this week. Joe has sold his farm property east of Barons.

Mrs. Hillerd received word on Tuesday of the death of her sister, Mrs. Maggie Brandyold, at Shelly, Mont. She left immediately to attend the funeral.

Mrs Atkinson, the mother of Miss Blanche Atkinson of the public school staff, has removed her family from Calgary and is occupying the Gardo Getts' cottage on Fourth ave.

The first snowstorm of September whitened the hills west of Claresholm on Monday night. Banff reported six inches on Friday night and north of Calgary they had about four inches.

The Claresholm High School has decided to enter a team in the inter-collegiate debating league which is under the auspices of the department of extension of the University of Alberta.

M. Mecklenburg, M. A., an exclusive eye expert of 29 years' experience, ten years in Calgary, will be at the Queen's Hotel, Claresholm on Thursday October 1st. He will properly, scientifically and thoroughly examine and test your eyes and you will find his charges moderate.

Some time ago, we allowed some one to borrow a book containing a mailing list which we had given some time and attention to compile. The borrower has failed to return the same and we should be put to great very inconvenience to replace this list. We should be very obliged if this list should find its way back at an early date.

Petitions are being circulated throughout the riding for signature asking the government for a referendum on the liquor act proposed. Those who wish to sign and have not been directly solicited may see a copy of the proposed act and sign the petition either at the store of E. G. Barber or at the coal office of J. W. Hallett.

Wm. and Mrs. Cannon, from North Lanark, Ont., arrived this week to visit Mr. and Mrs. J. E. Moffatt. They left Ontario on Aug. 11th and have been visiting at different points in the West. This is the first time Mr. Cannon has visited the western provinces and he is impressed with the remarkable soil fertility here. The large Noble farm, which he was shown, opened his eyes to the bigness of things in Alberta.

T. C. Taylor, of Portland, Ore., who has land in this vicinity, arrived on Thursday of last week to take care of his interests here. Mr. Taylor believes that with proper tillage, this country will soon escape from the occasional crop failures and be as reliable as it is fertile. Mr. Taylor is possessed of the larger optimism which enables a man to not only keep faith in the country but also to keep faith with the country.

EDITORIAL COMMENT

It is not too early to talk Christmas Greeting Cards. Call in the Advertiser once more and see the new and lovely Canadian cards which are a truly Canadian product. Other years we were patronizing foreign makers. The one outstanding lesson of the war is that our industries must be built up. The more self-sufficient a nation is the safer is her trade conditions in times of crisis. The range of choice we are offering this year has not been duplicated here. The prices are right. Look them over early.

It is getting to be quite a common occurrence among the newspapers of the province to hear "that owing to lack of patronage due to 'times' publication will be suspended until further notice." In still times the local newspaper becomes of greater importance if in no other way than attempting to stem the pessimistic tide and uniting the people of a town to distribute the disabilities that no vital business may suffer.

The Dominion government, acting on the hypothesis that the banks of the country could be depended upon to act in the public interest, issued the Bank Act, which it is understood, will be "discharged until further notice." In still times the local newspaper becomes of greater importance if in no other way than attempting to stem the pessimistic tide and uniting the people of a town to distribute the disabilities that no vital business may suffer.

The various judges of Alberta have expressed themselves as being opposed to giving judgment in foreclose proceedings in connection with mortgages during the depression caused by the great war now being waged. The master in chancery, L. F. Clarry, says that this understanding will continue until the war is over. This means no mortgage sales for a while and some will be wicked enough to hope that the war is not soon settled. The above concession does not apply to any one who has absconded from the province.
